Basic Hospital is designed for treatment in a public hospital, if you are admitted to a private hospital, be prepared for significant out-of-pocket expenses. Remember, theatre fees are not covered under Basic Hospital and there is limited cover for private room accommodation.

A pre-existing condition is defined as an ailment or illness where, in the opinion of a medical practitioner appointed by the Fund, the signs or symptoms existed at any time during the six months before, or on the day which a member joins private health insurance or upgrades to a higher level of cover.

Going To Hospital?

In-Hospital Medical Services And Using The Access Gap Cover

These are the medical services you receive while admitted as an in-patient in hospital, or approved day facility, and may include services received from your specialist doctor, assisting surgeons, anaesthetist, pathology and radiology.

We are restricted by law to paying 25% of the MBS fee, while Medicare pays the other 75%. If the charges are more than the MBS fee, this is where your gap payment occurs.

The most common cost not covered by Medicare or by private health insurance, referred to as a "Gap", is the portion of the in-hospital medical services fees that are greater than the Medicare Benefits Schedule (MBS) Fee.

Medicare Benefits Schedule (MBS) Fee

75% covered by Medicare

25% covered by ACA Health

Portion Of The Fee Above MBS = Gap Payment

OR this can be fully or partially covered by ACA Health where the **Access Gap Cover** Scheme is used

To help avoid or minimise your gap payment, ACA Health offers the **Access Gap Cover** Scheme. If your doctor chooses to participate in the scheme, and bills in accordance with these arrangements, we can pay a higher benefit and you will either:

- ✓ Have ZERO gap expenses, or
- ✓ Have a known gap of up to \$500 per item (\$800 for obstetrics)

Using Access Gap Cover also makes it much easier for you and the doctor to claim your benefits from Medicare and ACA Health (see "How to claim your benefits").

It is your doctor's choice to bill using the Access Gap Cover scheme, and they may do so on a case-by-case basis. **It's important to discuss with them before your treatment begins that you would like them to participate in the scheme for you.**

You can search which doctors have previously used **Access Gap Cover** and to check which hospitals are contracted with ACA Health at acahealth.com.au.

Having A Baby?

- ✓ Make sure you have family cover at least 2 months before the baby is born to ensure waiting periods are served so that the baby will have immediate cover.

Generally, newborn babies are not admitted hospital patients, (unless they are admitted to an approved neonatal intensive care unit, are the subsequent baby in a multiple birth, or are in hospital without their mother). This means that when a baby is treated by a paediatrician in hospital, and the baby is not admitted, the costs can only be claimed from Medicare.

Likewise, only medical services received while a mother is an admitted patient in hospital can be claimed from ACA Health.

Surgically Implanted Medical Devices and Human Tissue Products**

These include pacemakers, defibrillators, joint replacements and other devices that are surgically implanted during a stay in hospital. There are often a number of different choices available with any particular Surgically implanted Medical Devices and Human Tissue Products, which can vary in cost and benefits.

The Department of Health has set a Surgically implanted Medical Devices and Human Tissue Product List with gap and no gap items. You and your surgeon will be able to choose from this list of Surgically implanted Medical Devices and Human Tissue Products that is most appropriate for you. If you agree to a Surgically implanted Medical Device and Human Tissue Product which has a gap, you will need to pay the gap amount.

How To Claim Your Benefits

Hospital Claims

At the time of hospitalisation, the hospital will request details of your private health insurer – so keep your membership card handy and present this to the hospital when you are admitted. On discharge, check that all your details on the account are correct and then sign the hospital claim form signifying that you are satisfied that the details are accurate and are giving the hospital authority to claim from us on your behalf. From there on, we take care of the rest! The benefit will be forwarded to the hospital as payment of the account, or if you have paid the account yourself, the benefit will be sent directly to you.

Medical Claims

Doctors using the Access Gap Cover Scheme will usually bill ACA Health direct. We will claim from Medicare on your behalf and send the payment directly to your doctor. If the doctor gives you the account, but has stated they are billing using the Scheme, send the account to us – clearly identifying it is to be claimed through Access Gap Cover.

Doctors not using Access Gap Cover will give you the account and it is up to you to claim the Medicare re-imburement first. Medicare will issue you a statement which you send, with a signed claim form to ACA Health, for us to pay the remaining 25% of the MBS fee.

If we receive an account for services that are not covered, we will return the account unpaid.

This product benefits sheet must be read in conjunction with your ACA Health Policy Booklet. Please read these documents carefully and retain them for your future reference.

If your health care provider does not have electronic claiming available, you can claim online or via post. To claim online through acahealth.com.au, login through 'Member login' and follow the prompts on the 'Make a Claim' page to upload your invoice and submit the claim. To claim via post, return a completed and signed claim form with the original invoices. You can download and print a claim form from our website. Our claims assessor will assess your claim and pay the benefits within 3-5 working days of receiving your claim.
