Hospital Treatment

Hospital Treatment Benefits

The benefits payable for hospital treatment are for admitted patients or where a benefit is specified under a Hospital Purchaser Provider Agreement with that hospital and are paid as set out in the relevant product rule.

For **surgical patients**, a period no greater than three nights pre-operative care will be considered in approved private hospitals. An exception to this rule may be made if a Medical Arbitrator appointed by the Fund determines that a particular surgical procedure requires a longer pre-operative period.

For **obstetric patients**, benefits will be paid for patients in approved private hospitals for one day prior to the day the patient commences labour, including induction of labour. An exception to this rule may be made if a Medical Arbitrator appointed by the Fund considers that a longer hospitalisation period prior to the commencement of labour was justified.

For **nursing home-type patients**, benefits will be paid at the private hospital level for 7 days only, thereafter the nursing home-type benefits will apply. In extreme cases, up to 7 additional days may be considered upon application to Fund management.

Patient Classification

Benefits for accommodation in Private Hospitals are payable in accordance with the classification of the patient. Patients are classified in line with the guidelines issued by the Department of Health.

Patient Classification: Benefit Calculation

- (a) The day of admission into hospital and the day of discharge from hospital shall be regarded as one benefit day.
- (b) Where a patient undergoes more than one operative procedure during one theatre admission, the procedure with the highest fee in the Medical Benefits Schedule determines the patient classification.

- (c) The patient classification of the procedure applies to the patient from when the procedure is performed.
- (d) For additional guidance the fund will follow the guidelines issued by the Department of Health.

Accommodation Benefits in a Public Hospital

Accommodation benefits payable in a recognised public hospital will be 100% benefit of the daily bed rate as set out by the relevant State Health Authority.

Coverage of In-Hospital Pharmacy - Gold Deluxe Hospital Only

Benefits are payable to cover costs that an eligible Insured Person incurs for pharmaceutical benefits dispensed to them while he / she is an admitted patient at the hospital or day hospital facility with which the Fund has a Hospital Purchaser Provider Arrangement. The costs that an Insured Person incurs for pharmaceutical benefits are contingent upon whether the Insured Person has reached the Safety Net Threshold under Commonwealth Government Pharmaceutical Benefits Scheme arrangements.

A 'pharmaceutical benefit' is defined as any medicine listed in the Schedule of Pharmaceutical Benefits (Commonwealth Department of Health) that is dispensed to the Insured Person.

A 'pharmaceutical benefit' referred to in this section of the Fund rules must be intrinsic to the hospital treatment provided, clinically indicated and essential for the meeting of satisfactory health outcomes for the Insured Person. It does not include pharmaceutical benefits dispensed that are not directly related to treatment of the condition or ailment for which they have been admitted.

The Fund also covers the costs that an Insured Person incurs for special patient contributions, brand premiums and therapeutic group premiums listed in the Schedule of Pharmaceutical Benefits that apply to certain pharmaceutical benefits, regardless of whether the Insured Person has reached the Safety Net Threshold under Commonwealth Government Pharmaceutical Benefits Scheme arrangements.

The Fund covers costs for pharmaceutical benefits up to a maximum quantity dispensed. The maximum quantity covered is as listed in the Schedule of Pharmaceutical Benefits, or as recorded on an Authority Prescription Form (and authorised by Medicare Australia) where the quantity dispensed is clinically indicated, intrinsic to the hospital treatment provided and essential to the meeting of satisfactory health outcomes for the Insured Person.

Where the cost to an Insured Person for a drug or medicinal preparation listed in the Schedule of Pharmaceutical Benefits is less than the pharmaceutical benefit co-payment (determined by the Commonwealth Department of Health), these drugs are not considered to be 'pharmaceutical benefits' and are not covered by the Fund under this section of the rules.

General (Ancillary) Treatment

The benefits payable for General Treatment services and the conditions that apply to the payment of these benefits are set out in the General Treatment product guides.

From July 1, 2000 any benefit claims for ancillary health care or paramedical services not exempt from GST will need to be submitted with a "tax invoice" which has GST shown separately on all accounts or state that GST was included.

Waiting Periods: Changes to Policies

A Policy Holder or Insured Person changing policies shall not be eligible to receive any increased benefit associated with the new policy until all waiting periods described in the Rules above have been served following the first payment of contributions at the new rate. However, during the above waiting period, benefits will be payable at the rate applicable to the previous policy from which the Policy Holder or Insured Person transferred. This is on the proviso that they were eligible for benefits under the previous policy, and that the level of benefits of the previous policy do not exceed that of the current policy.

Pre-Existing Ailment or Condition (PEA)

Pre-existing ailment means an ailment or illness for which the signs or symptoms, in the opinion of the Medical Adviser or other relevant health care practitioner appointed by the Fund to give advice on such matters, existed at any time during the six months preceding, or on the day of, the commencement of contributions for the policy, or change to a policy with a higher cover. Benefits shall not be payable for a period of 12 months from the commencement of contributions. If changing to a policy with a higher level of cover, benefits will only be payable at the lower level of cover for a period of 12 months if a pre-existing condition exists at that time.

PEA: Information from Treating Practitioner(s)

ACA Health may suspend consideration of a claim or reject payment of benefits on a claim until such time as;

- (a) the Insured Person (or Policy Holder where appropriate) authorises the release of the information required by the Fund appointed Medical Advisor to form an opinion; and

PEA Waiting Period Not to Apply Where the Fund Alters the Cover

Where ACA Health has changed the terms of a policy type, any higher or additional benefit now available to existing Insured Persons of the cover are not subject to an additional Pre-Existing Ailment waiting period.

This Fund Rule has no effect on any other waiting period or condition that applies to a newly available benefit.

ACA Health may at its discretion waive or reduce any waiting period.

The waiver or reduction of a waiting period has no effect on:

- any other waiting period;
- any benefit limitation period; or
- any other Fund Rule applicable to the same service.

Other

Policy Holder is the Claimant

All claims must be submitted by the Policy Holder unless the Policy Holder has made arrangements in writing for Insured Persons to claim independently on the policy, making them an Authorised Benefit Recipient. Where arrangements have been made to allow an Insured Person to claim

independently, this arrangement will continue until the Fund has been informed in writing, by the Policy Holder that the arrangement is to cease.

Payment of Claims to Policy Holders

ACA Health will pay benefits, for paid claims against a policy, to the Policy Holder unless the Policy Holder has provided permission to the Fund to pay the benefits to another person. This can be done by electing that an Insured Person be eligible to receive benefits with respect for services relating to claims for themselves, or by electing a third party by indicating this each time on the claim form. Where arrangements have been made to allow an Insured Person to receive benefits on their claims independently, this arrangement will continue until the Fund has been informed in writing, by the Policy Holder that the arrangement is to cease.

Manner of Benefit Payment

- (a) ACA Health may pay benefits by cheque or electronic funds transfer in accordance with arrangements it determines from time to time.
- (b) ACA Health will endeavour to pay benefits to Policy Holders either by cheque or electronic funds transfer in accordance with the election made on the claim form, however where the Fund is unable to be certain of the banking information supplied, ACA Health will produce a cheque.
- (c) Where incorrect payment details have been provided by the claimant (Policy Holder or Insured Person) the claimant is responsible for all costs associated with the recovery of the payment. Where the claimant is unwilling to pay the cost to recover the amounts paid by the Fund in satisfaction of the claim, the claimant's benefit entitlement in relation to the claim is considered extinguished by the health fund.

CONSUMER POLICIES

Privacy Policy

ACA Health is committed to maintaining the privacy of individuals whose personal information we collect in accordance with the National Privacy Principles (NPPs) and the Privacy Act. The Fund is bound by the NPPs, however as a non-profit organisation certain exemptions under the Privacy Act may apply.

Our policies on the management of personal and sensitive information in accordance with the terms of National Privacy Principle (“NPP”) number 5.1, are set out below.

Why ACA Health Collects Information

The Fund collects personal information about Insured Persons not only when they join the Fund, but from time to time during their membership, and on leaving membership.

The personal information collected either by, or on behalf of the Fund, will only be used for the purposes of administering the Fund, including the determination of entitlement to benefits, the calculation and payment of those benefits and the collection of contributions together with related regulatory requirements such as member communication and reporting.

The Fund, and its delegates, will only use the personal information collected for the purposes outlined above. The Fund will *not* use information collected for any other purpose, unless the individual gives his or her consent. A Policy Holder providing information about dependants will be responsible for making dependants aware that personal information has been provided for the purposes outlined above.

What Information is collected and how is it used?

The Fund engages various service providers to assist in the tasks involved in managing the Fund. Those providers include:

- Hospital and Medical Contracting Suppliers;
- Auditors;
- Insurers; and
- Software Systems Suppliers and Consultants.

The Fund undertakes to contact each provider and obtain:

- reassurances that they comply with the legislation; and
- a copy of their Privacy Policy.

In order to be able to administer the Fund, key personal information about Insured Persons is collected and stored.

Such information includes:

- Name;
- Address;
- Date of birth;
- Gender;
- Contact telephone numbers;
- Dependants details as above and relationship to the Policy Holder; and
- Bank account details or credit card details for direct debit.

In particular, the Fund uses the information to provide all relevant administration services, which include:

- Recording contributions;
- Retaining membership records; and
- The payment of benefits.

With respect to Medicare Australia matters, the Fund stores the Medicare number of Insured Persons for the purpose of making direct claims on Medicare Australia on behalf of the Insured Person who has received in-hospital services under our Access Gap Cover scheme as well as applying for the Federal Government 30% rebate on private health insurance.

“Sensitive” Information

Special rules apply to “sensitive” information which includes “health information”. For example, with respect to Pre-Existing Ailments/Conditions, the Fund will need to collect a variety of information, which might include details as to Insured Person’s medical conditions (including medical reports), and the like. The information collected will be used to determine eligibility to benefits during the first 12 months of membership or at the time of an upgrade to a higher level of cover. The Fund will provide Insured Persons with further information in that regard when they are asked to provide health information.

Disclosure of Information

The Fund will only disclose personal information where directly necessary to perform its services outlined above. The Fund will *not* otherwise disclose any personal information that has been collected unless:

- Express consent is given by the individual affected; or
- Law requires disclosure.

The Fund undertakes to Insured Persons not to disclose sensitive information without their consent. For dependants age 14 and over consent will be necessary. For dependants under 14, discretion will be used by the Fund in determining if disclosure will be made to the Policy Holder.

Access by Individuals to Information Collected

Individuals will have access to their own personal information collected by the Fund and are able to notify the Fund of any corrections which need to be made. The Fund will only grant access by an individual to personal information where the individual's identity has been confirmed by the Fund through appropriate identification procedures.

Security of Information

Personal information collected by the Fund may only be accessed by Fund employees, agents and delegates. Given that the Fund outsources various functions, the security of the interface with those providers is critical, and the Fund has addressed this issue. Each service provider is responsible for taking reasonable precautions to protect the security of personal information it holds.
